Project Location:

71 Tisbury Lane West, West Tisbury

Anticipated date of submission:

May 10, 2018

Project Description:

The proposed project involves the removal of invasive plant species and downed trees within a bordering vegetated wetland and riverfront area. Paths will be cut around the perimeter of the property to gain access to the areas for management and also provide a buffer from adjacent invasive vegetation and prevent re-establishment within the managed area. The purpose of the project is to restore the native vegetation community and historic habitat of the property.

Reviewing Authority:
