Worcester, MA 01606

Please find enclosed a petition to designate the Buckley and Mann Site at 17 Lawrence Street in Norfolk, Massachusetts as a Public Involvement Plan Site with DEP RTN 2-3000173 pursuant to M.G.L. c. 21E, § 14(a) and the Massachusetts Contingency Plan, 310 CMR 40.1404. The Petitioners request that a repository be established in each town affected at the Norfolk Public Library and the Franklin Public Library. The AUL has been terminated with a Tier Classification Extension (filed in Land Court 5/14/2018). Recent (4/26/2018) Mabbett & Associates ***Project Status Summary on the Former Buckley & Mann*** property reports the presence of heavy metals in the soils in the wetlands outside the AUL including, but not limited to, Chromium VI, Chromium III, Lead, Antimony and Arsenic at various locations, including several near the banks of the Mill River. Levels of Antimony, Cadmium, Chromium III, Lead and Zinc exceeded MCP reportable concentrations for S1. In addition, the MCP reportable concentrations were also exceeded for 2-Methylnaphthalene (Table 13) ***Project Status Summary on the Former Buckley & Mann***: <https://mabbett.citrixdata.com/share/view/s342a7be362d4f548>)

The undersigned are concerned with the environmental and health risks related to these contaminants found outside the AUL and therefore request the PIP Site designation. Please contact me if further information is needed to complete the PIP Site request.

Thank You,

Sandra Myatt on behalf of
Friends of Lawrence Street
PO Box 20
