**Water Management Act Permit Application
Received by the Department of Environmental Protection
For the Concord River Basin
From the City of Marlborough
Water Management Act Permit #9P-2-14-170.01**

The City of Marlborough has applied to the Department of Environmental Protection (MassDEP) for an increase in the Water Management Act authorized withdrawal from Milham Reservoir. The City currently has authorization through a registration and a permit to withdraw 1.77 million gallons per day (MGD). The City is requesting an increase of 0.23 MGD for a total withdrawal volume of 2.00 MGD. The increase will allow the City to reduce the volume of water purchased from the Massachusetts Water Resources Authority. The increased withdrawal will not result in an overall increase in water used by the City. Permits granted in the Concord River Basin are effective through August 31, 2011. Permit holders in the basin will be required to apply for a permit renewal at that time.

The location of the intake at the Milham Water Treatment Plant:

Latitude N 42° 20.42' / Longitude W 71° 36.60'

A copy of this application is available for review at MassDEP, 627 Main St., Worcester, MA. Call the MassDEP Service Center at (508) 792-7683 to arrange an appointment. The application can also be reviewed at the Marlborough Department of Public Works office, 135 Neil St., Marlborough, MA. Call (508)624-6910 to arrange an appointment.

Written comments on the granting of a MassDEP permit for this withdrawal are to be filed within thirty (30) days of publication of this Legal Notice (by February 20, 2009). The written comments are to be submitted to MassDEP, 627 Main St., Worcester, MA 01608, Attention: Barbara Kickham.
