Re: Algonquin Gas Transmission, LLC - HubLine/East to West Project
Notice of Project Change for Application No. 14118

Dear Ms. McDevitt:

Algonquin Gas Transmission, LLC ("Algonquin") is providing this letter to update you regarding the proposed HubLine/East to West Project ("Project"). Algonquin has been involved in discussions with some of its customers who wanted to discuss revisions to the Project so that the proposed facilities are sized and timed to meet current market needs. These discussions have been completed and, due to customers reducing their volumes, the Project facilities have been significantly reduced and suspended in Massachusetts. Portions of the Project in Connecticut and New Jersey will remain and the Federal Energy Regulatory Commission will continue its review of the Project pursuant to the National Environmental Policy Act in Docket No. CP08-420-000.

Based on these discussions, Algonquin hereby gives notice that it is officially withdrawing its Environmental Notification Form as filed with the Massachusetts Executive Office of Energy and Environmental Affairs MEPA Office. Algonquin is also withdrawing its applications and/or consultations with the Massachusetts Department of Environmental Protection, Bureau of Wetlands and Waterways and Bureau of Waste Prevention; Office of Coastal Zone Management; and Natural Heritage & Endangered Species Program.

If you have any questions regarding this information, please do not hesitate to contact me at 617-560-1417.

Sincerely,

Terrance Doyle
Environmental Project Manager
