

An application for 410 Water Quality Certification and Chapter 91 Waterways License is pending before the Department of Environmental Protection to decommission sludge lagoons at the Great Pond Water Treatment Plant located at 80 Pine Circle in Weymouth, MA. The project involves the removal of 60,000 cubic yards of drinking water treatment plant residuals from the existing lagoon network. Also included is the installation of two new 90-foot long 24-inch diameter pipes through the existing lagoon containment berms.

These applications are submitted by the Town of Weymouth Water and Sewer Department, 120 Winter Street, Weymouth, MA 02188. Additional information may be obtained from the Town of Weymouth Water and Sewer Department at the above address, or by calling Mr. Brad Hayes at 781-340-5040. Written comments should be sent to the DEP's Division of Wetlands and Waterways, at 1 Winter Street, Boston, MA 02110, within twenty-one days of this notice.

Written comments on the Chapter 91 Dredge Permit must be sent within 15 days of this notice to: Ben Lynch, Program Chief, Waterways Regulation Program, One Winter Street, 6th fl., Boston, MA 02108.

Any group of ten persons, any aggrieved person, or any governmental body or private organization with a mandate to protect the environment who submits written comments may appeal the Department's Certification/License. Failure to submit written comments before the end of the public comment period may result in the waiver of any right to an adjudicatory hearing.
