

NOTICE OF A REMEDY IMPLEMENTATION PLAN

**AMERICRAFT CARTON INC.
45 BOLT STREET
LOWELL, MA
RTN 3-15650**

A **Remedy Implementation Plan** (310 CMR 40.0874) has been developed for the above site pursuant to the Massachusetts Contingency Plan (310 CMR 40.1406). This disposal site was classified as Tier II and granted a Waste Site Cleanup Permit on October 27, 1998.

The **Remedy Implementation Plan** proposes the following measures to respond to a release of oil and/or hazardous material at this disposal site:

- The objective of Enhanced Fluid Recovery (EFR) is to achieve improved recovery of No. 6 fuel oil residual in the subsurface by applying a high pressure vacuum at selected wells currently containing No. 6 fuel oil. Fluid recovery rates will be evaluated in order to determine the appropriate length of time to achieve the maximum amount of fluid recovery at each well. The time span at each well may be modified based on the amount of oil and groundwater recovered for subsequent EFR events.

M.G.L. c. 21E and the Massachusetts Contingency Plan provide additional opportunities for public notice of and involvement in decisions regarding response actions at disposal sites: 1) The Chief Municipal Official and Board of Health of the community in which the site is located will be notified of major milestones and events, pursuant to 310 CMR 40.1403; and 2) Upon receipt of a petition from ten or more residents of the municipality in which the disposal site is located, or of a municipality potentially affected by a disposal site, a plan for involving the public in decisions regarding response actions at the site will be prepared and implemented, pursuant to 310 CMR 40.1405. To obtain more information on this disposal site and the opportunities for public involvement during its remediation, please contact Paul D. Steinberg, P.E., LSP of Mabbett & Associates, Inc., 5 Alfred Circle, Bedford, MA at (781) 275-6050.
