

Submitted to the Environmental Monitor on April 18, 2006

The Foxborough Water and Sewer Department has applied to DEP for a Request for Site Exam application for siting a public water supply source to withdraw up to approximately 0.4 million gallons per day of water from the ground water of the Taunton River Basin, in Foxborough. The proposed well site is located approximately 2,000 feet north of the intersection of South Street and West Street in South Foxborough.

Written comments on the granting of a DEP permit to conduct additional testing of the site for a new water supply withdrawal are to be filed within thirty (30) days of publication of this notice in the Environmental Monitor. The written comments are to be submitted to the Water Management Program at the DEP Southeast Region Office.
