

NOTICE OF A REMEDY IMPLEMENTATION PLAN

**CONCORD OIL COMPANY, INC.
147 LOWELL ROAD
CONCORD, MASSACHUSETTS
RTN 3-001189 AND RTN 3-23741
TIER IB PERMIT NO. W051371**

A Remedy Implementation Plan (RIP) has been developed for the above disposal site in general accordance with the Massachusetts Contingency Plan (MCP). This disposal site was classified as Tier IB and was issued permit number W051371 on February 13, 2005 by the Massachusetts Department of Environmental Protection.

The RIP proposes to excavate source area soil and NAPL, decommission existing ASTs, excavate and remove underground piping, and excavate and remove the UST associated with the former extraction well. Removal of source areas will significantly increase the effectiveness of natural subsurface processes in degrading residual petroleum impacts at the disposal site.

M.G.L. c. 21E and the Massachusetts Contingency Plan provide additional opportunities for public notice of and involvement in decisions regarding response actions at disposal sites: 1) the Chief Municipal Official and Board of Health of the community in which the site is located will be notified of major milestones and events, pursuant to 310 CMR 40.1403, and 2) upon receipt of a petition from ten or more residents of the municipality in which the disposal site is located, or of a municipality potentially affected by a disposal site, a plan for involving the public in decisions regarding response actions at the disposal site will be prepared and implemented, pursuant to 310 CMR 40.1405.

To obtain more information on this disposal site and the opportunities for public involvement during remedial activities, please contact Jarrod P. Yoder, P.G. of GeoInsight, Inc. in writing at 5 Lan Drive, Suite 200, Westford, Massachusetts, 01886, or by phone at (978) 692-1114 extension 17.
