

On June 4, 2009 the Executive Office of Energy and Environmental Affairs (EEA) launched the Climate Change Adaptation Advisory Committee, formed under the Global Warming Solutions Act of 2008. The Advisory Committee has been charged by the Legislature with evaluating strategies for adapting to the predicted effects of climate change. These effects include increased sea levels, warming temperatures, and increased incidences of floods and droughts. For more information on the Committee, see <http://www.mass.gov/dep/public/committee/ccaac.htm> .
