Public Meeting Notice
Fan Pier project, Northern Avenue, South Boston

Thursday, July 19, 2007 at 6:00 PM
Anthony's Pier 4 Restaurant, 140 Northern Avenue, South Boston

In accordance with the final Consolidated Written Determination ("CWD") issued for this project in November, 2002, the applicant, Fan Pier Development LLC, has submitted plans and other application materials for the construction of all Public Realm Elements and buildings on parcels F, H, and I. The plans and application materials have been determined by the Waterways Regulation Program (WRP) to be in substantial conformance with the project as approved by the CWD. The WRP has scheduled this public informational meeting to provide the public an opportunity to view and comment upon the final design of the buildings and public realm elements to be licensed at this time. The WRP may incorporate any comments received that are consistent with the terms and conditions of the CWD into the licenses to be issued for the buildings and public realm (including public open space, water transportation facilities, and interior public uses).

Comments may be submitted verbally at the meeting or in writing. The deadline for submitting comments is August 12, 2007. Written comments may be addressed to Ben Lynch, Waterways Program Chief, One Winter Street, Boston, MA 02108 or sent by email to alexander.strysky@state.ma.us. For additional information, please contact Alex Strysky of the Waterways Program at (617)292-5616 or by email at alexander.strysky@state.ma.us.
