Tier IC Permit No. W021622**

RECEIVED

AUG 11 2003

A Remedial Action Plan (310 CMR 40.0861) has been developed for this site pursuant to the Massachusetts Contingency Plan (310 CMR 40.1406). This disposal site was classified as Tier I on July 20, 2001 and granted a Waste Site Cleanup Permit on November 15, 2001.

MEPA

The Remedial Action Plan proposes the following measures to respond to a release of oil and/or hazardous material at this disposal site:

- ◆ A Phase III Remedial Action Plan was submitted to MADEP on November 9, 2001 which identified natural attenuation as the preferred remedial technology for mitigating petroleum hydrocarbon concentrations in impacted groundwater at the disposal site.
- ◆ After further evaluation, a Phase III Remedial Action Plan Addendum was submitted to MADEP on February 14, 2002 which amended the original plan to include the potential use of oxygen releasing compounds as a contingency measure, if required, to augment natural attenuation performance at the disposal site.
- ◆ A Phase III Remedial Action Plan Addendum is currently being submitted to include the potential use of chemical oxidation, if required, to augment natural attenuation performance at the disposal site.

M.G.L. c. 21E and the Massachusetts Contingency Plan provide additional opportunities for public notice of and involvement in decisions regarding response actions at disposal sites: 1) The Chief Municipal Official and Board of Health of the community in which the site is located will be notified of major milestones and events, pursuant to 310 CMR 40.1403; and 2) Upon receipt of a petition from ten or

more residents of the municipality in which the disposal site is located, or of a municipality potentially affected by a disposal site, a plan for involving the public in decisions regarding response actions at the site will be prepared and implemented, pursuant to 310 CMR 40.1405.

To obtain more information on this disposal site and the opportunities for public involvement during its remediation, please contact Donald Griffin, Jr., Environmental and Safety Manager, CITGO Petroleum Corporation, PO Box 655, 35th Street and the Delaware River, Pennsauken, New Jersey 08110 at 609-963-1251.
