## FEDERAL CONSISTENCY REVIEW NOTICE

The Massachusetts Office of Coastal Zone Management (CZM) is reviewing the proposal(s) listed below for consistency with its enforceable program policies. Project proponents have filed a statement and accompanying information with CZM certifying that their proposal is consistent with these policies. This information is available for public inspection at the CZM Office. Written comments may be submitted to CZM within twenty-one days of the publication date of this *Environmental Monitor*, or as otherwise noted below. Send hard copies of your comments to Robert.Boeri@state.ma.us.

Anyone having technical questions regarding a particular project should contact the reviewer listed at the end of each notice below. Anyone having questions regarding the public comment process, or having comments on any project listed below should contact:

Robert L. Boeri, Project Review Coordinator  
Massachusetts Office of Coastal Zone Management  
251 Causeway Street, Suite 800  
Boston, MA 02114

---

**The Town of Wellfleet** is proposing a project involving maintenance dredging of a historic channel and anchorage area. Contact Steve McKenna at 508-375-6856

---

**The Town of Harwich** is proposing maintenance dredging of a series of historic channels and area all within the Town of Harwich. Contact Steve McKenna at 508-375-6856.

---

**The United States Army Corps of Engineers, New England District** plans to perform maintenance dredging of the Federal Navigation Project at Plymouth Harbor, Plymouth. The proposed work involves maintenance dredging of the 18-foot-deep Mean Lower Low Water (MLLW) main channel, the 15-foot-deep MLLW channel extension and turning basin, and the 60 acre by 8-foot-deep MLLW anchorage, comprising the Plymouth Harbor Federal navigation project (FNP). The 18-foot MLLW main channel will be dredged to its maintained depth of 15-feet MLLW, while all other project features will be dredged to authorized dimensions. Contact Jason Burtner 781-546-6012.

---

**The Town of Winthrop** is proposing shoreline restoration at Coughlin Park. The proposed project is designed to stabilize approximately 360 linear feet of eroding shoreline. The proposed project will install approximately 360 linear feet of fiber rolls extending north from the existing rock revetment located at the southern end of the Park. Contact Lisa Engler at 617-626-1230.
