**From:** Water Resource Services, Inc.

**Date:** August 2, 2018

**Re:** Notification of filing an NOI for Laurel Lake

**Anticipated date of submission:** August , 2018

**Proposed Project:** Drawdown of Laurel Lake by 3 feet, with an option to increase the depth of drawdown with additional regulatory approval in 2019 or later. A 3 foot drawdown was conducted in 2010-2017, but not in winter 2017-2018, and worsened conditions in 2018 suggest the need for resumed winter drawdown. Laurel Lake is in both Lee and Lenox; the Lenox Conservation Commission held its hearing on August 2 and this notice covers the Lee Conservation Commission hearing, expected on August 29 or September 5, and intended to get Lee and Lenox temporally coincident for this permit.

**Reviewing Conservation Commissions:** Lee Conservation Commission, 32 Main Street, Lee, MA 01238 (413) 243-5511.

Copies of the NOI may be examined at the office or acquired electronically from the Conservation Commission or by contacting the applicant's representative, Water Resource Services at [kjwagner@charter.net](mailto:kjwagner@charter.net). See the Conservation Commission websites for the meeting schedule for exact dates and agendas, <https://www.lee.ma.us/conservation-commission>. It is expected that a hearing will be held on August 22 or September 5, 2018 at the Lee Town Hall.
