

Per 310 CMR 10.11, this notice is on behalf of Robert Strassler for an Ecological Restoration Project located at 102 West Road, Alford MA. Applications for an NOI and a 401 water quality certification are pending before the Department of Environmental Protection for work involving the drawing down of the Strassler pond on Alford Brook in order to dredge the pond and restore fish habitat. A Notice of Intent and the 401 water quality certification for the project will be filed with the Alford Conservation Commission. Copies of the filings can be reviewed at the Alford Conservation Commission offices or by contacting Accord Engineering, 413-528-8999. A date and time for the public hearing can also be obtained by contacting the Alford Conservation Commission.
