Re: Notification of filing a Notice of Intent and Ecological Restoration Limited Project Appendix A to Form 3 for Wildlife Habitat Management on property owned by Gary Roy and Kathleen Adamczyk in Worthington, MA

Notice: MassWildlife will file the Notice of Intent with the Worthington Conservation Commissions and MA DEP in August 2019 or early September 2019.

Project Description: A 5 acre young forest and shrubland habitat project will be conducted on the eastern portion of the Roy/Adamczyk property (Map-412 -- Lot-0 29) south of the discontinued portion of Ring Road in Worthington, MA. The project is tailored to enhance wildlife habitat using timber harvesting and vegetation control techniques. The project qualifies as an Ecological Restoration Limited Project (ERLP), as restoring/enhancing this habitat will improve the interest of wildlife habitat, an identified interest of the Wetlands Protection Act (M.G.L c. 131).

More Information: Further information about the Notice of Intent, including examination of copies, and public hearing may be obtained from the Worthington Conservation Commission. See Conservation Commission website for the meeting schedule for exact dates and agendas on all public hearings
