

Pursuant to 310 CMR 10.11(1), notice is provided of an upcoming Notice of Intent (NOI) filing for an Ecological Restoration Limited Project by the Massachusetts Division of Fisheries and Wildlife (DFW).

Name of the applicant: Massachusetts Division of Fisheries and Wildlife (DFW)

Brief description of the proposed project: The DFW is proposing to undertake a range of management actions and activities at Agawam Lake Wildlife Management Area. The four primary management activity types are: invasive plant control, general vegetation control, beaver mitigation, and prescribed fire. All management activities are designed to improve wildlife habitat functions and restore or enhance regionally significant wetland ecosystems while avoiding, minimizing, and mitigating adverse effects on the landscape.

Anticipated date of NOI submission: On or about December 31, 2019

Name and address of the Conservation Commission that will review the NOI: Great Barrington Conservation Commission, 334 Main Street, Great Barrington, Massachusetts 01230

To obtain an electronic copy of the NOI: Contact Alex Patterson, ESS Group, Inc. at apatterson@essgroup.com or (401) 330-1233.

To obtain information related to the date, time, and location of the public hearing: Contact the Great Barrington Conservation Commission at (413) 528-1619 ext. 122, conservation@townofgb.org, or <https://www.townofgb.org/conservation-commission>
