FEDERAL CONSISTENCY REVIEW NOTICE

The Massachusetts Office of Coastal Zone Management (CZM) is reviewing the proposals listed below for consistency with its enforceable program policies. Project proponents have filed a statement and accompanying information with the CZM Office certifying that their proposal is consistent with these policies. This information is available for public inspection at the CZM Office. Written comments may be submitted to the CZM Office within twenty-one days of the publication date of this *Environmental Monitor*, or as otherwise noted below. To submit comments electronically, send an e-mail to Robert.Boeri@state.ma.us.

Anyone having technical questions regarding a particular project should contact the reviewer listed at the end of each notice below. Anyone having questions regarding the public comment process, or having comments on any project listed below should contact:

Steamboat Wharf Marina of Hull is proposing to permanently anchor its existing bottom-anchored floats, which provide 91 berths, and increasing the number of floats to provide 104 berths. Contact Jason Burtner 781-545-8028 x209.

The Exxon Mobil Oil Corp. is proposing to renew its NPDES permit #MA0000833 to discharge from a facility located at Beacham Street in Everett, MA to receiving water named Island End River to Mystic River. Contact Todd Callaghan 617-626-1233.

South River Limited Partners LLC is proposing a new boating facility to provide safe navigation and berthing along the river. Contact Jason Burtner 781-545-8028 x209.

The Town of Yarmouth is proposing to improve the front landscaping and sign of the Cape Cod Child Development West Yarmouth Day-care and head start facility with a Community Development Block Grant. Contact Bob Boeri.
617-626-1050.

The U.S. Department of Commerce/National Oceanic and Atmospheric Administration is proposing to dredge approximately 47,000 to 103,000 cubic yards of predominately-sandy material from the Great harbor entrance channel and approximately 25,800 to 34,900 cubic yards of silty-sand from the inner harbor. The project also involves the construction of a 510 foot by 50 foot wide pile supported concrete pier structure. Contact Steve McKenna 508-362-1760.

The National Park Service and Boston National Historical Park is proposing to replace the existing floating barge at the end of Pier One in the Charlestown Navy Yard with a new accessible barge providing a more secure landing and complying with ABAAS requirements. Contact Brad Washburn 617-626-1064.
