

**NOTICE OF APPLICATION FOR AN EXTENSION OF  
A WASTE SITE CLEANUP PERMIT**

FORMER TEXACO SERVICE STATION  
593 BROADWAY (ROUTE 138)

RAYNHAM, MA

RELEASE TRACKING NUMBER 4-0787

TIER 1C PERMIT NUMBER W009784

DEP TRANSMITTAL NO. W061678

Pursuant to the Massachusetts Contingency Plan (310 CMR 40.0703), an application for a **Tier 1C Permit Extension** is being submitted to the Department of Environmental Protection (DEP) for this site on April 14, 2005. The Tier IC Permit expires on June 7, 2005. The application proposes to extend the permit for this site for two years following the DEP approval of the permit extension request for the following rationale:

- ◆ To achieve a temporary and/or permanent solution

Once a site has been classified as Tier I, a permit is required to proceed with a Comprehensive Remedial Response Process. Anyone interested in reviewing the Permit Extension application should notify DEP by writing to DEP, Southeast Regional Office, Bureau of Waste Site Cleanup, Permit Section at 20 Riverside Drive in Lakeville, MA 02347 within twenty (20) days of publication of this legal notice. If anyone notifies DEP of his or her interest in reviewing or submitting comment on the application, DEP will conduct a public comment review period of twenty (20) days, which shall run concurrently with DEP's Initial Technical Review of the application. Anyone who fails to notify DEP in writing of his/her interest in commenting on the application by the above date may be deemed to have waived his/her rights, if any, to appeal DEP's permit decision or to intervene in an adjudicatory proceeding with respect to this application, pursuant to 310 CMR 40.0770(2).

M.G.L. c. 21E and the Massachusetts Contingency Plan provide additional opportunities for public notice of and involvement in decisions regarding response actions at disposal sites: 1) The Chief Municipal Officer and Board of Health of the community in which the site is located will be notified of major milestones and events, pursuant to 310 CMR 40.1403; and 2) Upon receipt of a petition from ten or more residents of the municipality in which the disposal site is located, or of a municipality potentially affected by a disposal site, a plan for involving the public in decisions regarding response actions at the site will be prepared and implemented, pursuant to 310 CMR 40.1405.

To obtain more information on this disposal site and the opportunities for public involvement during its remediation, please contact Adam J. Last, P.E., LSP, Principal Engineer, Corporate Environmental Advisors, Inc., 127 Hartwell Street, West Boylston, MA 01583, or at (508) 835-8822.
