CONSERVATION LAND: Will the project involve the conversion of public parkland or other Article 97 public natural resources to any purpose not in accordance with Article 97?

Yes (Specify _____) No

Will it involve the release of any conservation restriction, preservation restriction, agricultural preservation restriction, or watershed preservation restriction?

Yes (Specify _____) No

RARE SPECIES: Does the project site include Estimated Habitat of Rare Species, Vernal Pools, Priority Sites of Rare Species, or Exemplary Natural Communities?

Yes (Specify _____) No

HISTORICAL /ARCHAEOLOGICAL RESOURCES: Does the project site include any structure, site or district listed in the State Register of Historic Place or the inventory of Historic and Archaeological Assets of the Commonwealth?

Yes (Specify _____) No

If yes, does the project involve any demolition or destruction of any listed or inventoried historic or archaeological resources?

Yes (Specify _____) No

AREAS OF CRITICAL ENVIRONMENTAL CONCERN: Is the project in or adjacent to an Area of Critical Environmental Concern?

Yes (Specify _____) No

PROJECT DESCRIPTION: The project description should include (a) a description of the project site, (b) a description of both on-site and off-site alternatives and the impacts associated with each alternative, and (c) potential on-site and off-site mitigation measures for each alternative (*You may attach one additional page, if necessary.*)

The Randolph Project – The Highlands at Blue Hills – consists of 300 units of rental housing in twelve buildings comprised of 162 one-bedroom units, 130 two-bedroom units, and 8 three-bedroom units. A 5,000± square foot clubhouse also will be provided. The Project site is a 23.16± acre parcel of land located off Canton Street in Randolph, Massachusetts. Twenty-five percent of the proposed units will be affordable. The Randolph Zoning Board of Appeals has denied an Application for a Comprehensive Permit under M.G.L. c.40B and the Proponent has appealed that decision to the Housing Appeals Committee.

The property could be developed with about 45 single-family homes, but this alternative was not pursued since it does not meet the Proponent's objectives and does not provide affordable housing. The primary impacts associated with the Project include stormwater, water supply, wastewater, and traffic. A complete stormwater management system is proposed, a new water supply main will be constructed, upgrades to the sewerage system are complete, and roadway improvements will set off the effects of Project-related traffic.

An adjacent Project (The Highlands at Canton Meadows and Acorn Estates at Canton Hills in Canton) affects some of the same infrastructure and resources as the Randolph Project. An Environmental Notification Form for that Project is being filed simultaneously so that joint effects can be presented and explored.

For additional details, see Attachment 1 – Project Description.
