Mr. Camp -

My apologies, as upon review I realized that I did not include Mr. Nascarella's contact information at DPH. His telephone number is 617-624-5757.

Sincerely,
Rebecca Buswell
Audits Section Chief
MassDEP, Bureau of Waste Site Clean-up, Central Regional Office

Subject: Re: Drinking water for farm animals around PFAS

Hello Mr. Camp -

Thank you for your email and voice mail messages.

I would like to direct you to the PFAS area of the MassDEP website to help you obtain some additional PFAS information, if not the answers to your very specific questions. Use this link for the MassDEP website PFAS area: <https://www.mass.gov/info-details/per-and-polyfluoroalkyl-substances-pfas>

With regards to your concerns for the health of your cows and their potential ingestion of PFAS impacted groundwater and the possibility of humans consuming the beef, please address them to Marc Nascarella, Director of Environmental Toxicology at the Massachusetts Department of Public Health.

Your other concerns about sampling and responsibility should be addressed with the Town of Princeton and their LSP, Jeff Arps of Tighe & Bond. Jeff may be reached at 413-221-6201.

I will try to give you call back later today or tomorrow.
