**Subject: Laboratory Analytical Results**  
70 Bean Porridge Hill Road  
Westminster, Massachusetts  
MassDEP RTN : 2-0021866

To William Michalowski and Nicol Michalczyk:

Environmental Strategies and Management, Inc. (ES&M) collected water samples from your home for PFAS analysis on February 24, 2022 on behalf of the Massachusetts Department of Environmental Protection (MassDEP). Samples were collected from your basement and were analyzed for PFAS via EPA Method 537.1.

The analytical results indicate that the total PFAS (PFHxA, PFHxS, PFOA, PFNA, PFOS, and PFDA) concentration detected in raw untreated influent water from your private well was 333 nanograms per liter (ng/L) on February 24, 2022. This detection was above the Massachusetts drinking water standard of 20 ng/L.

MassDEP has provided these results to Massachusetts Natural Fertilizer Company, Inc. and their consultants, Lessard Environmental, Inc. It is our understanding that they have installed a point of entry treatment system to remove PFAS from your water and will be responsible for maintaining the treatment system.

As required by 310 CMR 40.1400 of the Massachusetts Contingency Plan (MCP), ES&M is providing the analytical results to you as the property owner. Included with this letter are the analytical results from February 24, 2022, and a Bureau of Waste Site Cleanup (BWSC) Transmittal Form BWSC-123, which documents the sampling activity and that ES&M has provided the results to you.

If you have any questions, please contact our office at 508-226-1800.

Sincerely,

*Environmental Strategies & Management, Inc.*

A handwritten signature in cursive script, appearing to read 'Brooke Paulsen', is written in black ink.

## Laboratory Qualifiers

### Report Definitions

DL	Method, Instrument, or Estimated Detection Limit per Analytical Method
CL	Control Limits for the recovery result of a parameter
LOQ	Reporting Limit
DF	Dilution Factor
RPD	Relative Percent Difference
LCS(D)	Laboratory Control Spike (Duplicate)
MS(D)	Matrix Spike (Duplicate)
MB	Method Blank

### Qualifier Definitions

*	Recovery or RPD outside of control limits
B	Analyte was detected in the Lab Method Blank at a level above the LOQ
U	Undetected (Reported as ND or < DL)
J	Estimated Concentration.
E	Amount detected is greater than the Upper Calibration Limit
TIC	Tentatively Identified Compound
ND	Not Detected
P	RPD > 40% between results of dual columns
D	Spike or surrogate was diluted out in order to achieve a parameter result within instrument calibration range

Samples requiring manual integrations for various congeners and/or standards are marked and dated by the analyst. A code definition is provided below:

M1	Mis-identified peak
M2	Software did not integrate peak
M3	Incorrect baseline construction (i.e. not all of peak included; two peaks integrated as one)
M4	Pattern integration required (i.e. DRO, GRO, PCB, Toxaphene and Technical Chlordane)
M5	Other - Explained in case narrative

**Note** Results pages that include a value for "Solids (%)" have been adjusted for moisture content.

## Sample Summary

<u>Client Sample ID</u>	<u>Lab Sample ID</u>	<u>Collected</u>	<u>Received</u>	<u>Matrix</u>
70 Bean Porridge Hill Road	32200404001	02/24/2022 14:25	03/01/2022 11:35	Drinking Water
70 Bean Porridge Hill Road [FB]	32200404002	02/24/2022 14:20	03/01/2022 11:35	Drinking Water

**Case Narrative**

The amended Massachusetts Drinking Water Regulations establish a Maximum Contaminant Level (MCL) of 0.000020 mg/L or 20 ng/L (also called parts per trillion or ppt) for the sum of six PFAS compounds (PFOS, PFOA, PFHxS, PFNA, PFHpA and PFDA), known as PFAS6. This value is also applicable to the individual compounds.

Sample **70 Bean Porridge Hill Road** does not meet criteria: Total PFAS 333 ng/L, PFHpA 37.8 ng/L, PFOA 117 ng/L, PFOS 161 ng/L.

The samples were received on March 1, 2022 at 11:35 am via courier in good condition with a temperature of 1.7°C.

The Field Blank sample was "Extract & Hold" per client instructions. Per client instructions "Hold" sample was only analysed and reported if the corresponding sample had detections.

The samples and associated QC samples were prepared on March 4, 2022 and analysed on March 7 and 9, 2022 via EPA method 537.1

**70 Bean Porridge Hill Road and 70 Bean Porridge Hill Road (254491DUP)**

The sample extract required a 2-fold dilution due to the concentration of PFOS being above the calibration range (Batch XLC 1943).

### Detectable Results Summary

Client Sample ID: **70 Bean Porridge Hill Road**

Lab Sample ID: 32200404001-B

**A. The address of the disposal site related to this Notice and Release Tracking Number (provided above):**

1. Street Address: \_\_\_\_\_  
City/Town: \_\_\_\_\_ Zip Code: \_\_\_\_\_

**B. This notice is being provided to the following party:**

1. Name: \_\_\_\_\_  
2. Street Address: \_\_\_\_\_  
City/Town: \_\_\_\_\_ Zip Code: \_\_\_\_\_

**C. This notice is being given to inform its recipient (the party listed in Section B):**

1. That environmental sampling will be/has been conducted at property owned by the recipient of this notice.
2. Of the results of environmental sampling conducted at property owned by the recipient of this notice.
3. Check to indicate if the analytical results are attached. (If item 2. above is checked, the analytical results from the environmental sampling must be attached to this notice.)

**D. Location of the property where the environmental sampling will be/has been conducted:**

1. Street Address: \_\_\_\_\_  
City/Town: \_\_\_\_\_ Zip Code: \_\_\_\_\_
2. MCP phase of work during which the sampling will be/has been conducted:
- |  |   |
|--|---|
| Immediate Response Action              | Phase III Feasibility Evaluation                              |
| Release Abatement Measure              | Phase IV Remedy Implementation Plan                           |
| Utility-related Abatement Measure      | Phase V/Remedy Operation Status                               |
| Phase I Initial Site Investigation     | Post-Temporary Solution Operation, Maintenance and Monitoring |
| Phase II Comprehensive Site Assessment | Other _____   |
- (specify)
3. Description of property where sampling will be/has been conducted:
- residential      commercial      industrial      school/playground      Other \_\_\_\_\_
- (specify)
4. Description of the sampling locations and types (e.g., soil, groundwater, indoor air, soil gas) to the extent known at the time of this notice.

**NOTICE OF ENVIRONMENTAL SAMPLING**

As required by 310 CMR 40.1403(10) of the Massachusetts Contingency Plan

**MASSACHUSETTS REGULATIONS THAT REQUIRE THIS NOTICE**

This notice is being provided pursuant to the Massachusetts Contingency Plan and the notification requirement at 310 CMR 40.1403(10). The Massachusetts Contingency Plan is a state regulation that specifies requirements for parties who are taking actions to address releases of chemicals (oil or hazardous material) to the environment.

**THE PERSON(S) PROVIDING THIS NOTICE**

This notice has been sent to you by the party who is addressing a release of oil or hazardous material to the environment at the location listed in **Section A** on the reverse side of this form. (The regulations refer to the area where the oil or hazardous material is present as the "disposal site".)

**PURPOSE OF THIS NOTICE**

When environmental samples are taken as part of an investigation of a release for which a notification to MassDEP has been made under the Massachusetts Contingency Plan (310 CMR 40.0300) on behalf of someone other than the owner of the property, the regulations require that the property owner (listed in **Section B** on the reverse side of this form) be given notice of the environmental sampling. The regulations also require that the property owner subsequently receive the analytical results following the analysis of the environmental samples.

**Section C** on the reverse side of this form indicates the circumstance under which you are receiving this notice at this time. If you are receiving this notice to inform you of the analytical results following the analysis of the environmental samples, you should also have received, as an attachment, a copy of analytical results. These results should indicate the number and type(s) of samples (e.g., soil, groundwater) analyzed, any chemicals identified, and the measured concentrations of those chemicals.

**Section D** on the reverse side of this form identifies the property where the environmental sampling will be/has been conducted, provides a description of the sampling locations within the property, and indicates the phase of work under the Massachusetts Contingency Plan regulatory process during which the samples will be/were collected.

**FOR MORE INFORMATION**

Information about the general process for addressing releases of oil or hazardous material under the Massachusetts Contingency Plan and related public involvement opportunities may be found at <http://www.mass.gov/eea/agencies/massdep/cleanup>. For more information regarding this notice, you may contact the party listed in **Section E** on the reverse side of this form. Information about the disposal site identified in Section A is also available in files at the Massachusetts Department of Environmental Protection. See <http://public.dep.state.ma.us/SearchableSites2/Search.aspx> to view site-specific files on-line or <http://mass.gov/eea/agencies/massdep/about/contacts/conduct-a-file-review.html> if you would like to make an appointment to see these files in person. Please reference the **Release Tracking Number** listed in the upper right hand corner on the reverse side of this form when making file review appointments.
