Subject: RE: 2-0021866 - Westminster - Private Well Sampling Locations

At this time, MassDEP is requiring the sampling of residential wells on White Pine Drive, Amber Road, and Rock Maple Lane. The sampling area may change as results are received that indicate sampling should be performed farther afield. MassDEP suggests that homeowners outside of this current sampling area who may want to sample their wells consult MassDEP's PFAS webpage ([Per- and Polyfluoroalkyl Substances \(PFAS\) | Mass.gov](#)) to find more information about sampling and laboratories that perform those services.

Thank you,

Mark E. Baldi
Deputy Regional Director
Bureau of Waste Site Cleanup
MassDEP, Central Region
(508) 767-2803

Mark:

As discussed this morning, we extended private well sampling beyond 500 feet even before your request. We are seeking access to all properties on White Pine Drive, Amber Road, and Rock Maple Lane. We are receiving inquiries from residences outside of these streets, sometime at a substantial distance but in some way near Massachusetts Natural Fertilizer. As you know, we do not have a hydrogeologic evaluation at this time. Please advise regarding sampling of properties in this wider area.
